SUMMARY

Frontend Developer experienced in building scalable, responsive web applications using React, Next.js, Angular, and Svelte. Skilled in reusable UI components, state management, modern styling, REST API integration, and performance optimization. Focused on clean code and delivering high-quality user experiences.

PROFESSIONAL EXPERIENCE

Frontend Developer, Microsol **Mar 2026 - Nov 2026**

- Developed and maintained responsive web applications using React, Next.js, TypeScript, and Tailwind CSS in production environments.
- Built reusable and scalable UI components based on Figma designs, ensuring responsive layouts, cross-browser compatibility, and consistent user experience.
- Integrated frontend applications with REST APIs, managed server state using TanStack Query, and implemented efficient data fetching strategies.
- Developed complex forms using React Hook Form and validation schemas with Zod to improve data accuracy and user experience.

Software Engineer, Togetech **Sep 2025 - Feb 2026**

- Architected and shipped component-based interfaces across multiple frontend stacks (React/Next.js/Angular), adapting to project-specific tooling and conventions.
- Established design-system consistency by refactoring shared UI components, cutting duplicate code and streamlining future feature delivery.
- Implemented JWT-based authentication flows and client-side authorization logic, connecting frontend state to backend permission models.
- Raised code quality through structured peer reviews, systematic debugging, and test coverage, reducing regressions in production releases.

Software Engineer, SHI Studio **Apr 2025 - Dec 2025**

- Led delivery of frontend-heavy web applications, building scalable UI using Angular and React with TypeScript.
- Designed and implemented reusable component systems, improving development speed and UI consistency across pages/modules.
- Integrated complex UI flows with backend services (REST APIs), including secure login/session handling (JWT) and role-based UI behavior.

Software Engineer, Prepare.sh **July 2024 - Apr 2025**

- Built and maintained interactive frontend screens and dashboard-style views using a modern framework (React/Svelte).
- Implemented client-side form validation, state management, and API integrations for core product workflows.
- Improved UI reliability through bug fixing, code review participation, and structured refactoring.
- Ensured responsive design and consistent styling using Tailwind/SASS/UI libraries

Frontend Developer, Sabah.Hub **Apr 2023 - Nov 2024**

- Created accessible and optimized interfaces using React, SASS, and Typescript.
- Improved load performance and implemented responsive features for cross-device usability using Tailwind/SASS/UI libraries

PROJECTS

Morninx - Company website *Next.js, Tailwind CSS, Three.js, GSAP*

- Built an interactive 3D model with Three.js and animated the page with GSAP.

3ssay - AI-powered essay evaluation platform *Next.js, TypeScript, NestJS, Prisma, PostgreSQL, Paddle*

- Developed an AI-powered essay evaluation platform, generating numerical scores and detailed feedback.

Jeff - Company website *Next.js, Tailwind CSS, GSAP*

- Built the company website with Next.js and Tailwind CSS, adding smooth GSAP animations.

Hiri - Job posting and application platform *React, Next.js, Tailwind CSS*

- Developed a hybrid React and Next.js platform where employers post jobs and candidates apply.

SKILLS

Languages & Frameworks: HTML, JavaScript, TypeScript, React, Next.js, Svelte, Angular, Node JS, NestJS.
Styling & UI Frameworks: Bootstrap, CSS, SASS, Tailwind CSS, Material UI, Shadcn, GSAP, Three js.
State Management: Redux, Redux Toolkit, Zustand.
Version Control Systems: Git, GitHub, GitLab.
Project & Workflow Management: Jira, Slack, Bitrix.
Tools & Platforms: GitHub Actions (CI/CD), Stripe, JWT, Docker, Firebase, AWS S3.
Database: PostgreSQL, Redis.

EDUCATION

Bachelor of Computer Science **Sep 2022 - Jun 2026**
The Academy of Public Administration Under the President of The Republic of Azerbaijan
GPA: 95.3/100

Master of Digital Government **Sep 2026 - Present**
The Academy of Public Administration Under the President of The Republic of Azerbaijan

CERTIFICATES

Get Started with Figma / Coursera	**24/10/2023**
Learn the basics of web - Internet fundamentals / Codedamn	**01/11/2023**
Res API (Intermediate) / HackerRank	**28/10/2023**
Javascript / HackerRank	**14/10/2023**
Frontend Development / Matrix	**12/08/2023**
