MURSAL HAXVERDİYEV

SOFTWARE ENGINEER

github.com/mursel05 | linkedin.com/in/mursal-hakhverdiyev | +994 50 410 97 19 | mursal.haxverdiyev@gmail.com

SUMMARY

Software Engineer experienced in designing and developing scalable full-stack web applications. Skilled in building backend services and RESTful APIs using Node.js, NestJS, Express.js, and TypeScript, with experience in authentication, authorization, and database design. Proficient in modern frontend development using React, Next.js, Angular, and Svelte, building responsive interfaces and reusable components. Experienced with PostgreSQL, MongoDB, Redis, Docker, and CI/CD pipelines. Focused on clean architecture, maintainable code, performance, and delivering reliable software solutions.

PROFESSIONAL EXPERIENCE

Frontend Developer, Microsol **Mar 2026 - Nov 2026**

- Developed and maintained responsive web applications using React, Next.js, TypeScript, and Tailwind CSS in production environments.
- Built reusable and scalable UI components based on Figma designs, ensuring responsive layouts, cross-browser compatibility, and consistent user experience.
- Integrated frontend applications with REST APIs, managed server state using TanStack Query, and implemented efficient data fetching strategies.
- Developed complex forms using React Hook Form and validation schemas with Zod to improve data accuracy and user experience.

Software Engineer, TogeTech **Sep 2025 - Feb 2026**

- Led a development team in designing and delivering scalable full-stack applications using React, Angular, Node.js, and NestJS.
- Designed and developed RESTful APIs, implemented JWT-based authentication and authorization, and structured maintainable backend business logic.
- Designed and optimized relational and NoSQL databases using PostgreSQL, MongoDB, and TypeORM.
- Built reusable frontend components and integrated them with backend services to deliver seamless application workflows.
- Improved application performance, code quality, and scalability through code reviews, debugging, and architectural improvements.

Software Engineer (Freelance), SHI Studio **Apr 2025 - Dec 2025**

- Developed full-stack web applications using React, Angular, TypeScript, and Node.js.
- Implemented backend services, RESTful APIs, JWT-based authentication, and authorization mechanisms.
- Built reusable frontend components and integrated application interfaces with backend services.
- Participated in code reviews, testing, debugging, and refactoring to maintain clean and production-ready code.

Software Engineer, Prepare.sh **July 2024 - Apr 2025**

- Developed and maintained full-stack web application features using React, Svelte, TypeScript, and modern backend technologies.
- Implemented frontend workflows, API integrations, client-side validation, and state management.
- Worked with backend services, authentication flows, and third-party integrations to support core product functionality.
- Contributed to deployment workflows using Docker, Azure, and GitHub Actions CI/CD pipelines.

Frontend Developer, Sabah.Hub **Apr 2023 - Nov 2024**

- Created accessible and optimized interfaces using React, SASS, and Typescript.
- Improved load performance and implemented responsive features for cross-device usability using Tailwind/SASS/UI libraries

PROJECTS

Morninx - Company website *Next.js, Tailwind CSS, Three.js, GSAP*

- Built an interactive 3D model with Three.js and animated the page with GSAP.

3ssay - AI-powered essay evaluation platform *Next.js, TypeScript, NestJS, Prisma, PostgreSQL, Paddle*

- Developed an AI-powered essay evaluation platform, generating numerical scores and detailed feedback.

Jeff - Company website *Next.js, NestJS, PostgreSQL, Redis*

- Developed a full-stack company website using Next.js and NestJS, integrating backend services, PostgreSQL for data storage.

Hiri - Job posting and application platform *React, Next.js, Tailwind CSS*

- Developed a hybrid React and Next.js platform where employers post jobs and candidates apply.

SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS.
Frontend: React, Next.js, Angular, Svelte, Redux, Redux Toolkit, Zustand.
Backend: Node.js, NestJS, Express.js, RESTful APIs, JWT, TypeORM.
Styling & UI: Tailwind CSS, SASS, Bootstrap, Material UI, Mantine, Shadcn UI, GSAP, Three.js.
Databases: PostgreSQL, MongoDB, Redis.
DevOps & Cloud: Docker, Docker Compose, GitHub Actions, Azure, AWS S3, Firebase.
Tools & Workflow: Git, GitHub, GitLab, Jira, Slack, Stripe.

EDUCATION

Bachelor of Computer Science **Sep 2022 - Jun 2026**
The Academy of Public Administration Under the President of The Republic of Azerbaijan
GPA: 95.3/100

Master of Digital Government **Sep 2026 - Present**
The Academy of Public Administration Under the President of The Republic of Azerbaijan

CERTIFICATES

Get Started with Figma / Coursera	**24/10/2023**
Learn the basics of web - Internet fundamentals / Codedamn	**01/11/2023**
Res API (Intermediate) / HackerRank	**28/10/2023**
Javascript / HackerRank	**14/10/2023**
Frontend Development / Matrix	**12/08/2023**
